

IBNA KOWSAR

✉ kawser.ibn.93@gmail.com | [in Kowsar](https://www.linkedin.com/company/kowsar) | [kawseribn](https://github.com/kawseribn)

🌐 website: kawseribn.github.io | Nashville, Tennessee

Education

Tennessee State University [TSU]

Tennessee

M.S. in Computer Science (Data Science Specialization)

2023 – 2025 (expected)

- **Research Interests:** Machine Learning, Deep Learning, Self-supervised & Unsupervised Methods, Problem-solving for Tabular and Image Data
Supervisor: Dr. Manar Samad

Brac University [BRACU]

Bangladesh

B.Sc in Computer Science and Engineering

2017 – 2021

- CGPA: 3.87/4.0 (Highest Distinction)
- Undergraduate Thesis : Facial Expression Recognition: Convolutional Attentional Masking Network and Ensemble Approach
Supervisor: Md. Hasanul Kabir, PhD. Co-Supervisor: Rasif Ajwad

Technical Skills

Languages and Frameworks: Python, Java, MySQL, Assembly (x86, 8051), PyTorch, Flask, FastAPI

Developer Tools and Libraries: Git, Bash Scripting, Pandas, OpenCV, Scipy, Matplotlib, Seaborn, Plotly, Tensorflow, Docker, AWS, Jupyter, Asana

Software and Design Environments: MATLAB, Simulink, Proteus, LabVIEW, Webots.

Hardware Description and Modeling Languages (HDLs): Verilog, VHDL

Professional Experience

Graduate Research Assistant

Aug'2023 – Jun'2025

CIDA Lab, TSU

- Implementing and enhancing deep learning algorithms for tabular data
- Investigating Deep Learning-based strategies to enhance domain adaptation on image data

Machine Learning Engineer

Jul'2021 – Jan'2023

Apurba Technologies Ltd.

- Enhanced and optimized existing Machine Learning systems to address challenges in Bengali OCR (Optical Character Recognition), Detection, and Layout Segmentation
- Deployed and handled Machine Learning models to the server using FastAPI

Lecturer

Oct'2021 – Aug'2023

BRAC University

- Managed and mentored a diverse student body of over 150 each term while collaborating closely with fellow faculty to coordinate coursework
- Taught a range of courses including Introduction to Robotics (CSE461), System Analysis and Design (CSE471), Digital Logic Design (CSE260), and Database Systems (CSE 370)

Undergraduate Teaching Assistant

Jan'20 – May'21

Programming Language I (Structured Programming) & II (OOP)

Java, Python

- Created video tutorial on Object Oriented Programming in both Java Python
- Provided Consultation Hours for Problem Solving and Exam Preparation

Publications and Preprints

Deep Clustering of Electronic Health Records Tabular Data for Clinical Interpretation

Preprint Submitted - 2023

- A deep clustering strategy using electronic health records data when patient labels or clinical outcomes are unknown for a supervised machine learning task

A Deep Learning Based Unified Solution for Character Recognition

ICPR 2022

- Segmentation & Recognition of Bangla, Assamese and English (Handwritten, Typewritten, Computer Composed & Printed) characters using multi-headed CNN

Towards Building a Bangla Text Recognition Solution with a Multi-Headed CNN

IEEE BigData 2021

- State-of-the-art Recognition of Bangla OCR (Handwritten, Typewritten, Computer Composed & Printed) characters
- Proposed a model that reduces the complexity of multi-class classification and classifies the characters using only a three-headed convolutional neural network.

A Novel Approach to Enhance Safety on Drowsy Driving in Self-Driving Car

Springer MONET 2022

- Collected synthetic drowsy driving data and developed an algorithm for safe autonomous parking when detecting driver fatigue

An efficient Metaheuristic Approach for Finding Motifs from DNA Sequences

IEEE 2021

- Proposed an algorithm that can find DNA motif using a heuristic approach
- Learned various core heuristic approaches and analyzed how they affect the population

An Algorithmic Approach to Driver Drowsiness Detection in an Autonomous Car

IEEE TENSYPMP 2020

- Detecting drowsiness from driving behavior (Eye aspect ratio, Gaze, Yawning) and shifting to autonomous
- DOI: 10.1109/TENSYPMP50017.2020.9230766

Projects

Facial Expression Recognition | *Deep Learning, Attention Model*

Driver Drowsiness Detection and Alarming System | *Python, Opencv, ML*

Simobot: Simulation for Evolutionary Robotics | *AI, Robotics, Simulation*

Certificates & Awards

- | | |
|--|-----------|
| • Highest Distinction, Brac University | 2021 |
| • Merit Scholarship Award, Brac University | 2019-2021 |
| • VC's List and Dean's List Award, Brac University | 2019-2022 |
| • Presentation Skill Award, Brac University | 2017 |

Online Course Certificates

Neural Networks and Deep Learning: Issued Oct 2020

- Certification Authority: Coursera, License Number: NVYYFDCBVWDV

Sequence Models: Issued Jun 2020

- Certification Authority: Coursera, License Number: 3SMGJDBNBNDL

Convolutional Neural Networks: Issued Sep 2020

- Certification Authority: Coursera, License Number: PF9VWKNJ9RX5
